

Phonogram Practice Cards

70 total

Phonogram Practice Cards

(70 total)

Use these cards to help your student practice phonograms (speech sounds that match letter and letter combinations). Show them the phonogram side of the card, the other side is for you (it shows the sound(s) of the phonogram and cue words). Provide extra practice for those cards in which your student needed prompting. Learning phonograms has proven to aid in spelling, writing, and reading.
